

HUMIRON WSG-6

Water-soluble iron humate, contains 6% humate-chelated iron and 40% Humic Acids extracted from highly oxidized decomposed organic matter (Leonardite). Soil conditioner and Plant Growth Stimulant.

Composition (w/w):

Humic Acids:	40%	Org. Nitrogen:	0,6%
Chelated iron (Fe)	6%	Solubility:	>98%
Potassium (K ₂ O):	22%	Bulk density:	0,65g/cm ³

USAGE OF HUMIRON (whole season)

Spectrum of Usage	Dosage rate
Soil application	
	10-30 g/tree (light sandy soils) 100-300 g/tree (heavy soils)
Fruit Trees	10 g/tree per 10 cm diameter of bole
Berries and grapes	75-150 g per 10 m row
Field and vegetable crops, turfs	500 g per 1000 m ² (for the whole season)
Ornamental plants	25-50 g/m ³
Ornamental grove	25-50 g/tree or per 10 L of water
Roses	10-15 g/m ³ or 25-50 g add to 10L of water
Foliar application	Dissolve 30-50 g in 1000L water and apply after planting or when deficiency symptoms appear
Fruit Trees	20-25 g/20 L
Citrus, Grapes	20-25g/20 L
